

SOFTWARE DEVELOPER

Tomas Carignano Aznarez

WORK EXPERIENCE

Qsoft, Argentina

Software Developer | June 2021 - Present

Qsoft is a small software agency owned and run by my father, a senior software engineer.

- Implemented a REST API with Firebase Cloud Functions and TypeScript for a municipal bank, **facilitating 2000+ school payments per month.**
- Built a web app with Next.js, Typescript and Firebase, that **allows 4 schools financially manage their students.**
- Developed a website with Next.js, TypeScript, and Firebase, together with a serverless backend Express app, in order to **check mountain bike race rankings in real time.**
- Created a website in plain HTML & JavaScript, and integrated WhatsApp's API in order to **help a private hospital improve its communication with patients.**
- Debugged high priority bugs, and released fixes in a timely manner.

PROJECTS

Passport Bot

- I wrote a browser automation script with Node.js to **get myself an appointment at the Spanish Consulate of Cordoba, Argentina.**
- Read the story behind it in www.tomascarignano.com/projects/passport-bot
